This act, designed to promote openness and transparency in business operations, aligns seamlessly with our core values and principles.

### 1. What is the Norwegian Transparency Act?

The Norwegian Transparency Act mandates that companies operating in Norway provide clear, accurate, and timely information about their ownership structure, financial performance, and corporate governance practices. It ensures that stakeholders, including customers, and the public, have access to reliable information about the company's activities.

### 2. Our Commitment to Transparency

At Green Mountain, we not only comply with the Norwegian Transparency Act, but we go above and beyond its requirements. We believe that transparency is not just a legal obligation but a fundamental aspect of building trust with our stakeholders. Here's how we uphold our commitment to transparency:

#### 2.1 Clear and Comprehensive Reporting:

We maintain rigorous standards in our financial reporting, ensuring that our stakeholders have access to clear and comprehensive information about our financial performance, ownership structure, and governance practices.

#### 2.2 Timely Disclosure:

We adhere to strict timelines for disclosing information, ensuring our stakeholders receive timely updates about key developments, financial results, and other information pertinent to their interests.

#### 2.3 Open Communication:

We foster open communication channels with our stakeholders, encouraging them to reach out with any questions or concerns. Our commitment to open dialogue promotes trust and understanding between the company and its stakeholders.

## **2.4 Ethical Business Practices:**

We conduct our business with the highest ethical standards, ensuring that our operations align with legal requirements and industry best practices. Upholding ethical conduct is at the core of our corporate culture.

## **2.5 Continuous Improvement:**

We continuously evaluate and enhance our transparency practices, staying abreast of regulatory changes and industry trends. This proactive approach ensures that we are always at the forefront of transparency and corporate governance.
